Nursery Stock in Fruits is Scarce Again this Season

Many of you know that last season there was a tremendous shortage in fruit trees, plants and vines. We received many thousands of dollars, along with orders, last spring for goods that we had sold out on and were compelled to refund the money to our customers and they, like ourselves, felt badly about being disappointed.

There is going to be another shortage, this season as great if not greater than that of last year. In order to make sure of getting what you want this season, **PLACE YOUR ORDER NOW** and get it planted this fall if possible but, if you prefer to plant later, we will hold your order until you want it shipped.

The prices quoted in this price list are lower than was quoted in our last catalogue and are lower than they will be in our next catalogue, which will be out about November 1st.

By placing your order now, you save money on the prices, and you make sure of getting what you will want to plant for this season.

Our stock is as good as can be had at any price. Our prices are the lowest to be had for this first grade, high quality nursery stock.

· OUR GUARANTEE, is that *you must be satisfied or your money will be refunded for any items you purchase from us that are not what we represent them to be. Upon receipt of any stock ordered from us, if you are not perfectly satisfied, return it to us by express or mail and we will refund to you all money paid us for the items returned and for all transportation charges paid by you.*

OUR AIM. *What we try our very best to do, is to grow as good trees, plants and vines as can be grown and to grow the latest and most highly improved varieties of fruits and ornamentals and produce them as economically as we can.*

We are always on the lookout for something better in fruits and ornamentals. If you know of anything better than the varieties we offer, we want you to write us about what you have. If we are convinced that it is better than what we are offering, we will try to get your permission to let us propagate it and offer it for sale.

—
—
—

General Information

All orders amounting to \$10.00 and up we prepay the express or parcel post charges.

We guarantee all stock to be free from diseases and insects.

We use the utmost care to keep all our varieties true to name, and if stock proves untrue to name, we will refund price paid us or replace same free of charge and it is agreed that we are not liable for more cost than was paid to us.

Our Stock is as fine as we have ever grown and you will be pleased with what we send you this season.

Orders for less than \$1.00 prove to be a loss to us on account of the cost of packing small orders. Make your order for more than \$1.00 or we will be compelled to return it.

C. O. D. orders must have a deposit of 25 per cent accompany them.

You save from 75 to 100 per cent in buying direct from us, as we do not employ Tree Salesmen, as they are compelled to sell at about twice our prices in order to make a commission for themselves.

Our stock is guaranteed to be as good as can be produced, regardless of prices asked you.

REFERENCES—American National Bank, Express Agent, or Freight Agent, all of Rogers, Ark.; or any business firm in Rogers or Benton County, Ark.

OUR NEW ILLUSTRATED CATALOG WILL BE READY ABOUT NOVEMBER FIRST. Write for a copy and tell us about what you expect to plant and let us quote you lowest prices.

This Fall Is The Best Time To Plant That Orchard

Why do Experiment Stations, Agricultural Colleges and Fruit Growers Recommend Fall Buying?

Because you can buy this Fall and have the stock shipped to you and "heel it in" so that you may plant at the most favorable time during Fall, Winter or next Spring.

Fall planting is becoming more popular each season as experience shows its advantages, and it is becoming general. As soon as a tree or shrub becomes dormant it can be moved and the change of location will affect it but little. When set out in the

fall, the bruised roots begin at once to heal and callus is formed; the trees recover quickly from moving, soon become firmly established and with the first touch of spring are ready to go into business for themselves vigorously.

Again, the ground is usually in better condition for planting in the fall than in spring, for much spring planting is done when the ground is too wet for best results. Perhaps your spring will be two or three weeks earlier. In this case your trees should be planted earlier than the dates you have ordered them shipped. If they have been planted in the fall, the spring delays are done away with.

**Below We Quote from Some of the Best Authorities in the
Country on This Subject:**

W. H. Harrison, Virginia, in "Inland Farmer"—

Trees set out in the fall live and thrive better because it is not so hot, the soil is generally moist and they do not have the hot sun on them all at once before they take root. They also derive benefit from early spring rains and melting snows. By spring the tree is ready to grow off rapidly.

H. T. Van Deman, Ex-United States Pomologist—

Over a large part of this country fall planting is practicable. The ground is usually in better condition, wounds on the roots heal and the rootlets are formed, ready for growth at the first impulse of spring. If planting cannot be done in the fall for any reason, get the trees and heel them in until early spring, then they will be on hand just when needed.

J. C. Whitten, Prof. of Horticulture, Mo. State University—

"At the Experiment Station in Columbia, Mo., observations have been made of fall and spring planted trees. Data showing actual growth of Apple trees planted the last two seasons has been recorded, and in order each might be handled so as to eliminate other factors, many precautions were taken. In each case trees were selected in pairs as nearly alike as possible. One of each pair was set November 12, and those remaining were planted in the spring.

"At close of first season the average total growth of all new growth on fall set trees, 243.7 inches for each tree; the average total growth on spring planted trees, 123 in. Growth on autumn planted trees almost doubled that of trees set in the spring. We found that new root growth begins very quick on autumn set trees and callus is formed abundantly; whenever a large root was cut back wounds soon healed. Evidently root growth on autumn set trees continues LATER INTO WINTER than has been supposed, apparently does not cease until frost reaches the roots.

Jno. A. Worder, Author "American Pomology"

For the milder latitudes with their splendid fall weather, comparative leisure and the soil nearly always in good condition, everything invites us to plant in the autumn.

C. A. McCue, Horticulturist, Newcastle Co., Delaware

It is a good practice to do as much fall planting as possible. Our experience is that a fall planted tree does at least 50 per cent better the first year than one planted in the spring.

U. P. Hedrick, N. Y. Experiment Station

I always urge the planting of trees and shrubs in the fall. Where the climate permits fall planting is preferable. I have always taught that **there is** a distinct gain in planting most trees and shrubs in fall unless the climate is severe.

E. W. Kirkpatrick, Texas

In a temperate climate spring and early winter are the best times to plant trees. At this time the tree has more vitality, the soil is warmer and in better condition to settle around and heal the broken roots. New roots form early and the tree becomes more strongly anchored and prepared to pass the heat of summer. With the accumulating advantages the tree grows larger, is longer lived and produces more and better fruit.

M. B. Waite, Pathologist U. S. Department of Agriculture

When a nursery tree is perfectly dormant and has shed its leaves it is ready for transplanting. In fall planting a rapid growth during the mild weather of mid-autumn takes place to a certain extent. Especially in the South, trees may actually become rooted and the wounds heal before cold weather sets in. When the planting is properly done and the trees not injured by cold, they are ready to start into growth at the beginning of spring, often before it is possible to get on the ground for spring planting. Under average conditions, the fall planted tree will live better and make more growth than the spring planted one.

Farm Progress, St. Louis

The advisability of autumn or spring planting depends upon several conditions. Autumn planting has the advantage that trees become more firmly established before winter and are able to start growth in spring before the ground could be marked and put into condition for planting.

This is important because the trees make a good growth early in the season, before the summer droughts occur. On the other hand there is more or less danger from winter injury during a severe winter or by drying out if the winter is long and dry. Fall planting is much more successful with the hardy apples and peaches than with the tender plums and cherries.

Benton County Nursery Co.
Rogers, Arkansas.

Received my shrubs and trees over a week ago. They were in splendid condition. Everything is growing in spite of the hail storm we had just an hour after I finished setting out my plants. I lost 1 strawberry. Thanks so much for good measure. I'll certainly recommend you.

Mrs. Walter M. Derry, Jefferson, Ia.

SPECIAL BARGAINS

(AS LONG AS THEY LAST)

Apple Trees

(Not Over 10 Sold To Any One Customer)

Under 1 ft. high, 5c each; \$5.00 per 100
1 to 2 ft., 9c each; \$7.50 per 100

These trees were made and planted in the nursery very late last Spring, having several weeks of drouth this season they did not make the growth they would have made if the season had been favorable and they had been set earlier. They are well rooted trees and first class stock and will soon make very fine trees. We have in this small grade:

Yellow Transparent	Jonathan	Stayman Winesap
Ada Red	Yellow Delicious	Black Ben Davis
Grimes Golden	Delicious	

Peach Trees

Under 1 ft. high, 5c each; \$5.00 per 100
1 to 2 ft. high, 9c each; \$7.50 per 100

These are No. 1 trees in every respect. They are June bud trees and were budded late. The summer drouth retarded the growth. They are well rooted and will grow like magic. We have in this grade:

Early Wheeler	J. H. Hale	Belle of Georgia
Mayflower	Early Elberta	Heath Cling
Red Bird Cling	Elberta	Krummel October

Plum Trees

Under 1 ft., 10c each; \$7.50 per 100
1 to 2 ft., 15c each; \$12.00 per 100

These are June bud Plum Trees. They were budded late, same as the June bud peach trees described above; are well rooted and will grow into a fine tree very quickly. We offer in this grade:

Hanska	America	Burbank
Shiro	Gold	Red June

Grape Vines

3c each; \$3.00 per 100; \$25.00 per 1,000

These are well rooted grape vines (not merely cuttings). They were set out late and the drouth this season kept them from

making large vines. They will grow off well and make fine vines in one year. We only have in this grade: CONCORD.

Ornamental Shrubs

10c each; \$1.00 per Dozen; \$8.00 per 100

These shrubs are well rooted and will grow into an extra fine plant in one year. The few weeks drouth this summer retarded their growth this season. They are first class in every respect and you are sure to be well pleased with them. This lot will range in height from 10 to 24 inches and extra good plants: ALTHEA (Rose of Sharon) double white, red or pink; BARBERRY, Thunbergi; DEUTZIA, Pride of Rochester; FORSYTHIA, Intermedia; HONEYSUCKLE, white or pink; MOCK ORANGE, white; PRIVET (hedge plants), California, Amoor River, and Ibolium; SPIREA, Van Houttei; SNOWBERRY, Red; WEIGELIA, pink; HYPERICUM, (gold flower) yellow.

Evergreens

25c each; \$2.50 per Dozen; \$18.00 per 100

These evergreens are young trees, from 3 to 5 years old. They are well rooted and well shaped and will in very few years make a fine specimen evergreen. Young evergreens transplant as a rule better than older trees. We offer the following kinds that will range in height from 10 to 20 inches: Norway Spruce, Black Hill Spruce, Juniperus Virginiana, Yellow Pines, American Arborvitae, Chinese Arborvitae.

Benton County Nursery Co.
Rogers, Arkansas.

Received the trees in fine shape, planted them right away, accept my thanks,

Mrs. Charles Blotz. 611 North A. St. Tampa, Fla.

Benton County Nursery Co.
Rogers, Arkansas.

It is human nature when any one has done anything commendable to like being patted on the back, so I am writing this to serve you as a pat, I received the stock Monday in fine shape, and I have never seen finer roots on strawberry plants in my life. The grape vines and raspberry plants were fine, and I am well pleased. I sent your catalog to Mrs. Chas. Stewart of Oswego, Kan., and she received a small order from you and she thinks the same as I. I will probably have a small order this fall and if I do you will get it.

O. W. Bailey, 1222 E. Walnut, Columbus, Kan.

Benton County Nursery Co.
Rogers, Arkansas.

Received the trees I ordered all O. K. and thank you for the trees and for your promptness in filling the order.

Miss Ona Harmon, Bamford, Ala.

Apples

Our Apple Trees are whole root trees, propagated by experts, who have spent many years in propagation of fruits for the largest nurseries in the world. Our trees are made on French Crab seedlings, which make the very best root system apple trees can be grown on. No better trees than what we are offering you can be bought for any price.

Everbearing Blackberry—Resembles small trees and has ripe berries on them for 4 months. 25c each; \$2.50 per dozen.

Benton County Nursery Co.
Rogers, Arkansas

Mailed order for Nursery stock on March 22 received stock March 27 only five days after ordering, order checked out alright, found everything fresh and in fine shape, much better trees and vines than I expected at the price you are selling them at. Will probably order again sometime in the future.

W. C. McMillan, Belle Plaine, Kan.

Benton County Nursery Co.
Rogers, Arkansas.
Gentlemen:

I want to thank you for the healthy and nice size shrubs that you sent me. Shall always be pleased to recommend your nursery stock to my friends, also shall patronize you myself in future. I remain,

Yours respectfully,

F. Kelly, Baltimore, Maryland.

Benton County Nursery Co.
Rogers, Arkansas.
Dear Sir:

Order of 200 vines and 11 trees received in fine condition. Thanks for your promptness and fair dealing.

Respectfully,

Ed. C. Banbright, Columbia, S. Car.

Strawberries

Price:—1c each; 60c per 100; \$4.75 per 1,000

Early St. Louis—Very early and best quality.

Senator Dunlap—Medium early, high quality.

Klondike, (Improved)—One of the best shipping berries.

Aroma—One of the best commercial berries.

Cooper—Large, late and enormous bearers.

Premier—The most productive of all. Best quality. \$5.50 per 1,000.

Blakemore—The new strawberry that promises to be the best market berry yet introduced, medium early, very productive, fine quality and good shipper. 85c per 100; \$5.50 per 1,000.

EVERBEARING STRAWBERRIES

Price:—2c each; \$1.50 per 100; \$7.00 per 1,000

Progressive—Very productive and good quality.

Champion—Large sweet and fine bright red color.

Mastodon—The Big Jumbo Everbearing—The largest of all everbearers, has a very fine appearance in color and quality. 25 plants, \$1.00; 50 plants, \$1.75; 100 plants, \$2.00; 500 plants, \$8.00; 1,000 plants, \$15.00.

Benton County Nursery Co.

Rogers, Arkansas.

Gentlemen:—

Received your trees and sure was surprised to get such nice trees for so little money. I bought some trees from another firm a year ago and they were very little larger for nearly a dollar each. Will set out more trees (around 200) later and will surely order them from you.

Yours truly,

Wilford Olson, Port Allegany, Pa.

Benton County Nursery Co.

Rogers, Arkansas.

Sirs:

This comes to say I received my roses and chrysanthemums in excellent condition. Why the plants were as nice and green as they were when you shipped them. Thank you very much.

C. S. Mero, Worcester, Mass.

Benton County Nursery Co.

Rogers, Arkansas.

Dear Sirs:

I received my order of fruit trees this week and was very much pleased with them. They were much larger than you had described in your catalog, if I order another lot of trees this winter, I will order from you and will also tell my neighbors and friends about them. They were absolutely fine.

Yours very truly,

J. A. Staton, Scotland Neck, N. Car

Grapes

Benton County Nursery Co.

Rogers, Arkansas.

Dear Sirs:

I have this day received the fruit trees and they came in best of condition. Thanks for the big Paw-Paw trees. I will take the best of care to try to get them to grow O. K.

Yours very respectfully,

Dr. Guillermo M. Stell. Chihuahua, Mexico.

Benton County Nursery Co.

Rogers, Arkansas.

My order of trees etc., arrived O. K. I have bought small orders from several Nurseries and yours seem to be better rooted etc. I have mailed my catalog to a friend who is in the market for 1000 raspberry plants.

L. A. Colby, Bangor, Maine.

Benton County Nursery Co.

Rogers, Arkansas.

Received the 11 Pineapple Pear Trees in fine shape and they are sure fine trees. Thanking you very much for the fair and square treatment and assuring you that I am and will recommend your Nursery to every one always, I am,

Truly yours,

Gus Maslich, Laurel, Del.

Benton County Nursery Co.

Rogers, Arkansas.

I have received the apple trees etc., I ordered from you and will say that they are the best trees I have ever bought from any Nursery at any price. You can feel sure that I will send you my future orders.

W. B. Clark, Woolwine, Va.

Benton County Nursery Co.
Rogers, Arkansas.

A great surprise to receive the 3 roses for replacement and they look fine. You can rest assured that I will buy from no other Nursery in the future, and will tell all my friends who seem to be interested in any stock carried by you. I bought roses from 5 different houses this spring and can say without contradiction that the roses from Benton County Nursery Co., are by one and one half the largest, and somewhat cheaper. Please send me a few order blanks and envelopes.

J. B. Piot, Star R. No. 4, Box 357, Edgement Sta,
East St. Louis, Ill.

Wisteria, Magnifica—Lavender-purple. 50c each.
-

Benton County Nursery Co.
Rogers, Arkansas.

Received the peach trees and grape vines in good condition, roots were not cut off when took up. First I ever saw that didn't have the roots scarred or skinned or the most of them cut off in digging. The vines and trees were surely a bargain.

Havill Herroll, Luther, Okla.

Benton County Nursery Co.
Rogers, Arkansas.

My order of 150 Amoor River Privet received in excellent condition, for which I thank you.

Thomas J. Tunney, 909-72nd St., Kenosha, Wisc.

Benton County Nursery Co.
Rogers, Arkansas.

I am sending you my order for fruit trees and plants. This is the third year I've ordered from you. The trees which I set last year and year before last are doing fine. Of course I am satisfied is the reason I am ordering again.

C. Flowers, Chico, Texas.

-

Benton County Nursery Co.
Rogers, Arkansas.

Yours of the 17th inst received in which you offer to replace the weigelia you sent if I am not satisfied. The Rosea Nana Variegata Wiegelia have begun to bloom and I am highly pleased. Thank you for your offer, but wish to say that not only the weigelia but the other plants you have sent me are most satisfactory.

Miss Laura R. Love, Quincy, Fla.

Benton County Nursery Co.
Rogers, Arkansas.

I received my order Number 3086 of trees from you this Spring. Am writing you a few lines to let you know that they are all living. They came in excellent shape and were packed in first class shape. I have recommended your nursery to my friends both for quality and price. Will send you an order for more this fall. Thanking you for the care with my last order, I remain,
E. C. Weber, Pine Bluff, Arkansas.

Benton County Nursery Co.
Rogers, Arkansas.

I bought 110 of your fruit trees this spring and am more than pleased. I have never seen as good root system on trees in my life. Every tree is living and growing. They come to my door by mail and your packing is perfect. I'm a booster for your Nursery and wish you the greatest of success, for I'm more than pleased in every way.

John Tom Drake, Anderson, S. C. R. No. 5.

\$100 Prize Offered Free! \$100

We are offering a cash prize for the best letter from any customer who has bought nursery stock from us in the past, who will write us and tell what success they have had with the trees, plants or vines.

This letter must state the year the stock was purchased, and the variety. Be sure to state how many bushels, gallons, etc., you have grown or sold from them.

We want to know what success people all over the country are having with our fruits and ornamentals. We are willing to pay our customers for this information and are offering a nice cash prize for each of the eight best letters we receive.

Your letter must be sent to us with your permission that we may use it, or any part of it, in our advertising, should we so desire.

Prizes forwarded to Winners, December 7, 1935

The Judges will be three disinterested Stockholders of this Company.

The prizes will be awarded so, that in the opinion of the judges, the person writing the BEST letter will receive \$40.00, the SECOND BEST will be awarded \$20.00, the TWO THIRD BEST will be given \$10.00 EACH, and the FOUR NEXT BEST will receive a prize of \$5.00 EACH.

Any person who has bought from us in the past is eligible for this contest, and your letter may be the winner of a prize. Make your letter brief and tell how the stock received from us compared with that received from others, how it bore fruit or blossomed, compared with

others, how profusely it bore, the quality of the fruits, etc., borne, and what prices were received from products from our stock, compared with others.

**Be Sure to Get Your Letters to Us
Before December 7th, 1935.**

We thank you for the business you have given us in the past and trust we may have your continued confidence and business.

Yours very truly,

Benton County Nursery Company, Inc.
Rogers, Arkansas

OUR NEW ILLUSTRATED CATALOGUE will be out about November 1st. It will contain many new items in *Fruits* and *Ornamentals*. If you would like to have a copy, just sign this card and return to us and we will gladly mail you a copy as soon as it is out.

Tear this card off on dotted line and mail to us for new
